## RELEVANT SKILLS

---

- C/C++
- Python/Flask
- Ruby
- HTML
- CSS
- JavaScript/Node.JS
- PostgreSQL/MySQL
- Linux
- Scripting
- Git

## OTHER INTERESTS

---

- CyberSecurity
- Encryption
- Functional Programming
- Microcontrollers

## CAREER OBJECTIVE

---

As a junior software developer with an eagerness to learn, I hope to gain experience with new tools and to design and develop software using various technologies.

I'm security-minded with an affinity for problem solving; preferring to use lower-level languages and libraries, although I also have experience developing the frontend and backend of web applications, as well as working with databases.
